Please familiarize yourself with the information and read on the Hotel Safety Tip section in the succeeding page. You may also contact our Front Desk for any further queries.

Safety Tips:

Smoke

If your room is filled with smoke, fold a wet towel into a triangle and tie it over your nose and mouth. Get down on your hands and knees (or stomach) and crawl to the door. Feel the knob; if hot, do not open – wait for the rescuers to come for you. If the door is cool, open slowly and take your room key with you, check the hallway. If the hallway is filled with smoke, stay close to the walls and move along as you crawl to the nearest fire exit staircase. If the staircase starts to fill with smoke, return to your room.

DOUBLE LOCK AND LATCHES – For additional security, utilize the double lock provided on your door upon entering. This will prevent the door from being opened by a regular room key. As an additional precaution, please ensure that your room is double locked.

Upon Arrival

- Please refer to the back of your guestroom door to locate the fire exits and staircase.
- Please find alarm pull stations and fire extinguisher on your floor.
- Please turn off your air-conditioner unit in case of fire. This will prevent smoke from being drawn into your room.
